### **Non-GAAP Financial Information**

This release includes non-GAAP financial measures that are not in accordance with, nor an alternative to, generally accepted accounting principles and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles.

*Schedule E of this press release provides the reconciliation of the Company's historical non-GAAP measures to its GAAP measures.*

Management uses non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP operating margins, non-GAAP other expense, and non-GAAP diluted earnings per share to evaluate the Company's operating performance from continuing operations against past periods and to budget and allocate resources in future periods. These non-GAAP measures also assist management in understanding and evaluating the Company's operating results and trends in the Company's business.

**The following items are excluded from our Non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP operating margin, and non-GAAP diluted earnings per share:**

*Acquisition-Related Expenses:* Expenses incurred in the first quarter of fiscal 2015 and fourth quarter of fiscal 2014 as a result of the Hittite acquisition primarily include: severance payments; expense associated with the fair value adjustments to inventory, property, plant and equipment, and distributor deferred costs; and amortization of acquisition related intangibles, which include acquired intangibles such as purchased technology and customer relationships. We excluded these costs from our non-GAAP measures because they relate to a specific transaction and are not reflective of our ongoing financial performance.

*Stock-Based Compensation Expense:*

In the first quarter of fiscal 2015, the Company recorded \$3.0 million of stock-based compensation expense for one of its former executive officers due to the accelerated vesting of restricted stock units and a reduction in the requisite service period for stock options in accordance with the terms of the applicable agreements. In addition, in the first quarter of fiscal 2015, the Company recorded \$1.3 million of stock-based compensation expense due to the accelerated vesting of restricted stock units and stock options in conjunction with the restructuring charge recorded in the fourth quarter of fiscal 2014. In the fourth quarter of fiscal 2014, the Company canceled certain stock awards in conjunction with the restructuring charge which resulted in the recognition of income for stock-based compensation expense recorded in prior periods for these awards. These stock-based compensation expenses and income and the related tax effect have no direct correlation to the operation of our business in the future.

**The following items are excluded from our non-GAAP operating expenses, non-GAAP operating income, non-GAAP operating margin, and non-GAAP diluted earnings per share:**

The exclusion of these items allows management to evaluate the Company's core business and trends across different reporting periods on a consistent basis. Management presents these Non-GAAP items to enable investors and analysts to evaluate our core business.

*Acquisition-Related Transaction Costs:* Costs incurred as a result of the Hittite acquisition in the first quarter of fiscal 2015 and fourth quarter of fiscal 2014 include legal, accounting and other professional fees directly related to the Hittite acquisition. We excluded these costs from our non-GAAP measures because they relate to a specific transaction and are not reflective of our ongoing financial performance.

*Restructuring-Related Expenses:* These expenses are incurred in connection with facility closures, consolidation of manufacturing facilities, severance, and other cost reduction efforts. Apart from ongoing expense savings as a result of such items, these expenses and the related tax effects have no direct correlation to the operation of our business in the future.

---

**The following items are excluded from our non-GAAP other expense and non-GAAP diluted earnings per share:**

*Acquisition-Related Debt Costs:* The Company incurred debt financing costs during the fourth quarter of fiscal 2014 on its 90-day term loan facility used to finance the Hittite acquisition. We excluded these costs from our non-GAAP measures because they are not reflective of our ongoing financial performance.

**The following item is excluded from our non-GAAP diluted earnings per share:**

*Tax-Related Items:* In the first quarter of fiscal 2015, the Company recorded \$3.8 million of tax adjustments related to the Hittite acquisition. In addition, the Company recorded a \$7.0 million tax benefit related to the reinstatement of the R&D tax credit in December 2014, retroactive to January 1, 2014. In the fourth quarter of fiscal 2014, the Company recorded \$5.5 million of tax adjustments related to the Hittite acquisition. We excluded these tax-related items from our non-GAAP measures because they are not associated with the tax expense on our current operating results.

Management believes that the presentation of non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP operating margins, non-GAAP other expenses and non-GAAP diluted EPS is useful to investors because it provides investors with the operating results that management uses to manage the Company.

Analog Devices believes that non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income, non-GAAP operating margins, non-GAAP other expenses and non-GAAP diluted EPS have material limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures. In addition, our non-GAAP measures may not be comparable to the non-GAAP measures reported by other companies. The Company's use of non-GAAP measures, and the underlying methodology when excluding certain items, is not necessarily an indication of the results of operations that may be expected in the future, or that the Company will not, in fact, record such items in future periods.

Investors should consider our non-GAAP financial measures in conjunction with the corresponding GAAP measures.

Schedule DRevenue Trends by End Market (Unaudited)

The categorization of revenue by end market is determined using a variety of data points including the technical characteristics of the product, the "sold to" customer information, the "ship to" customer information and the end customer product or application into which our product will be incorporated. As data systems for capturing and tracking this data evolve and improve, the categorization of products by end market can vary over time. When this occurs we reclassify revenue by end market for prior periods. Such reclassifications typically do not materially change the sizing of, or the underlying trends of results within, each end market. The results below are inclusive of the Hittite acquisition from the acquisition date, July 22, 2014.
